

Let's Q Q一下

Bilingual campaign copy — English / 繁體中文

Scan. Hold your spot. Walk away.

掃一下，佔好位，你就自由了。

No account. No wait in line. Just Q.

不用留資料，不用真的站著排隊。Q一下就好。

Your place in line, without giving up your privacy.

排隊排到，隱私也顧到。

Skip the sign-up. Never skip your turn.

不用註冊，也不會被跳過。

Join any line by scanning a QR code — no sign-up, no name, no phone number. Just a number and a secret code. Free for everyone.

掃描 QR Code 就能排隊——不用註冊、不留姓名電話。只有一個號碼和一組通關密語。完全免費使用。

Let's Q turns any line into something you can hold from your pocket. Scan a QR code, create a short secret code, and you're in — no name, phone number, or email required.

- **Join multiple lines at once** — a food market, a photo booth, a prize table — and see them all in one list, color-coded so you never mix them up.
- **No more hovering by the counter** — check your live position, get notified when it's your turn, and step away in the meantime.
- **Queueing together?** Share your ticket with whoever's picking up for you.
- **Running an event?** Set up a queue in seconds, manage it from your phone, and get a real report afterward — average wait times, satisfaction scores, and what to change next time. No customer data collected, ever.

Free to download. Free to use. No account required to join a line.

Q一下讓排隊這件事變成你可以放在口袋裡的東西。掃描 QR Code、輸入一組簡短的通關密語，你就排上了——不用姓名、不用電話、不用電子郵件。

- **同時排好幾個隊伍也沒問題**——市集、拍照攤位、領獎攤位，全部顯示在同一個列表裡，用顏色分得清清楚楚。
- **不用一直站在櫃檯旁邊**——即時查看你的排隊進度，輪到你的時候會通知你，中間可以先去別的地方逛逛。
- **兩個人一起排隊？**把票券分享給要幫你去領的人就好。
- **舉辦活動的人呢？**幾秒鐘就能建立一個排隊活動，用手機就能管理，結束後還有真正的數據報告——平均等候時間、滿意度分數，還有下次可以怎麼改善。而且完全不會收集顧客的個人資料。

免費下載、免費使用。排隊完全不需要註冊帳號。
